

# Downloading Methylation and Detox Profile

Log onto [www.geneticgenie.org](http://www.geneticgenie.org)

1. Select "METHYLATION ANALYSIS" (next to home tab)

2. You will be taken to a new page where it will ask you how you want to obtain your results. You can either connect with 23andMe or if you have your raw data saved onto your computer you may upload it onto the browse button.

## Methylation Analysis

To get started, click the "Connect with 23andMe" button to connect directly with 23andMe or upload your genome zip file. Because of privacy concerns, file uploads and connections to 23andMe are done securely and your personal genome information is never shared or collected.

 OR  No file selected.

**The upload may take a while, so please be patient. After the upload is complete, your results will appear.**

If you are having trouble or getting errors uploading your genome, please use the "Connect with 23andMe" button. It's fast, easy, and the most secure method.

3. Save the file as a PDF onto your computer.

## Methylation Analysis Results

If you find this info helpful, please donate. Donations are needed to pay for the domain and server. I would like to say that anything extra will go to starving children in Africa, but in reality anything extra will probably be used for healthcare costs and overpriced vitamins. ;)
